Ajeet Vadheeya

WordPress & Web Developer

Ahmedabad, Gujarat | 9925396994 | vadhiyaajeet5905@gmail.com

CAREER OBJECTIVE

Results-driven WordPress and PHP Developer with 2.5+ years of experience building and maintaining e-commerce websites, custom themes, and plugins. Seeking a Web Developer, Software Developer, or E-commerce Developer role where I can apply my technical skills to deliver scalable, high-quality web solutions and grow with the organization.

EXPERIENCE

WordPress & Web Developer | Lujayn Infoways, Ahmedabad — March 2024 – Present

- Develop and maintain e-commerce websites using WordPress, WooCommerce, and Elementor.
- Build custom themes, child themes, and plugins tailored to client requirements.
- Create custom post types and flexible admin-managed content using Advanced Custom Fields (ACF).
- Implement AJAX-based features, third-party API integrations, and custom checkout functionality.
- Manage projects from requirement gathering to deployment, including testing and bug fixing.

WordPress / PHP CRUD Developer | Droptechnolab Pvt. Ltd. — Nov 2023 – Feb 2024

- Developed custom WordPress themes, child themes, plugins, and custom post types.
- Built PHP CRUD applications with MySQL for data management.
- Worked with WooCommerce and Elementor to deliver responsive client websites.

SKILLS

Languages: PHP, JavaScript, HTML5, CSS3
Libraries & Techniques: jQuery, AJAX, REST API integration
Database: MySQL
CMS & E-commerce: WordPress, WooCommerce, Elementor, ACF
WordPress Development: Custom themes, custom plugins, child themes, custom post types

PROJECTS

Consult Pigeon – Health Coin Plugin

- Developed a custom WordPress plugin that lets users redeem health coins for discounts on product purchases.
- Integrated an external API to fetch each user's health coin data in real time.
- Applied the available coin balance as a discount during checkout.

Champion Trophy & Awards – E-commerce Website

- Handled the project end to end, from initial development to final delivery.
- Built a customization feature for trophies, medals, and cups, so customers can add a personalized label and upload a logo from the thank-you page after ordering.
- Used ACF fields (Player Height, Plate Width) to determine label size and placement.

Sndhaiti – Membership Platform

- Implemented membership functionality that allows users to purchase and activate a membership plan.
- Integrated the membership purchase flow with the WooCommerce checkout process.

Ottawaderm Centre – AJAX Form

- Built a custom WordPress form that submits data via AJAX without reloading the page.
- Processed submissions with a custom WordPress action hook and emailed the details automatically to the admin.

Brockville – Dynamic Footer

- Created a dynamic footer using ACF, so admins can update text, images, links, and social media icons from the dashboard without touching code.

EDUCATION
